

**POLICY ADOPTION**

The Board shall adopt policies according to the following procedures: When it becomes necessary to establish a policy, the Hampton Falls School board shall direct the Superintendent to present a draft of such policy at its next regularly scheduled meeting for first reading. The policy shall be held for a period of one month for public and board input when, with revisions, if any, it shall be an agenda item for second reading and adoption.

A policy shall be established at the first reading only if an emergency exists and only with a majority of the Board voting in the affirmative.

**Law, Philosophy, and Enforcement**

The Board will make every effort to ensure that its policies conform to the higher supremacy of state and federal laws.

The Board requires all employees and students to comply with District policies. Failure to comply with said policies will be considered just cause for disciplinary action. Questions concerning any policy should first be addressed to the Superintendent.
