

ACCEPTABLE INTERNET USE PROCEDURES - STAFFPurpose

The purpose of the Acceptable Use Procedures is to provide the procedures, rules, guidelines, and the code of conduct for the use of technology and the Internet.

Definition

The Winnacunnet School District Technology Network (sometimes "Technology Network" or "District Network") consists of all computers, printers, personal digital assistants, telephones, cell phones, pagers, photocopiers and other peripheral devices that are owned or leased by the District and any configuration of computer hardware and software that connects users. The term includes all internal (intranet) and external (internet) connections as well as all of the computer hardware operating systems software, application software, stored text, and data, voice, and image files. The term also includes electronic mail, local databases, externally accessed databases, CD ROM, DVD, recorded magnetic or optical media, clip art, digital images, digitized information, communication technologies and new technologies as they become available. Stand-alone workstations are also governed by this acceptable use procedure.

The School District Services

The School District provides resources for teaching and learning, communication services, and business data services by maintaining access to local, regional, national, and international sources of information. The School District information resources will be used by members of the school community with respect for the public trust through which they have been provided and in accordance with policy and regulations established by the School District. These procedures do not attempt to articulate all required for proscribed behavior by its users.

Successful operation of the network requires that all users conduct themselves in a responsible, decent, ethical and polite manner while using the network. The user is ultimately responsible for his/her actions in accessing network services.

Guidelines

1. Access to the networks and to the information technology environment within the District is a privilege and must be treated as such by all users of the network and its associated systems.
2. Information networks will be used for the purposes of research, education, and school-related business and operations.

Guidelines - Continued

3. Any system which requires password access or for which the District requires an account, such as the Internet, will only be used by the authorized user. Account owners are ultimately responsible for all activity under their accounts.
4. The resources of the District are limited. All users must exercise prudence in the shared use of this resource.
5. Any computer, peripheral device, personal digital assistant, cell phone, pager or other device, not owned by the District, is not allowed to access the District's Technology Network without prior authorization from the District's Director of Technology or Business Administrator.
6. Any computer, peripheral device, personal digital assistant, cell phone, pager or other device, not owned by the District but which has been permitted to access the District Technology Network or which accesses the Technology Network without permission shall be governed by this policy and shall be considered part of the District's Technology Network.
7. Staff using their own computer or their own other technology device (e.g. PDA or cell phone) from outside a District facility (e.g. working from home) are only required to follow this policy while connected to the District's Technology Network (e.g. VPN) or when using a District application (e.g. email or phone system).
8. District computers may be taken home by District staff for training and school-related use at no charge when school is not in session. Authorization must be secured from the building principal or responsible administrator. The District's computer may not be used for any purpose not allowed under the Educational and Business Purposes section of this policy, or for producing personal income such as running one's own business or online teaching or tutoring that are non-SAU21 School District assigned duties. An employee will be responsible for repair or replacement costs caused by the employee's negligence.

School District Rights

The District reserves the right to:

1. Monitor all activity. Notwithstanding any related laws, staff members have no expectation of privacy regarding their use on the school district computer network.
2. Make determinations on whether specific uses of a network are consistent with these acceptable use procedures.
3. Log network use and monitor storage disk space utilization by users.
4. Determine what is appropriate use.
5. Remove a user's access to the network at any time it is determined that the user engaged in unauthorized activity or violated these acceptable use procedures.
6. Cooperate fully with any investigation concerning or relating to the District's network activity.
7. Expect staff to use school issued computer devices for any data collected or created including IEP files, 504 files, any sensitive files, etc.

School District Internet Code of Conduct

Use of the Internet by students and staff of the District shall be in support of education and research that is consistent with the mission of the District. Internet use is limited to those persons who have been issued District-approved accounts. Use will be in accordance with the District's Acceptable Use Procedures and this Code of Conduct. Users are expected to abide by the following terms and conditions:

1. Protect their Internet log-in information from others.
2. Respect the privacy of other users. Do not use other users' passwords.
3. Be ethical and courteous. Do not send hate, harassing or obscene mail, discriminatory remarks, or demonstrate other antisocial behaviors.
4. Maintain the integrity of files and data. Do not modify or copy files/data of other users without their consent.
5. Treat information created by others as the private property of the creator. Respect copyrights.
6. Use any network in a way that does not disrupt its use by others.

School District Internet Code of Conduct - Continued

7. Do not destroy, modify or abuse the hardware or software in any way.
8. Do not develop or pass on programs that harass other users or infiltrate a computer or computing system and/or damage the software components of a computer or computing system, such as viruses, worms, "chain" messages, etc.
9. Do not use the Internet to access or process pornographic or otherwise inappropriate material.
10. Do not use the Internet for commercial purposes.

The District reserves the right to remove a user's account if it is determined that the user is engaged in unauthorized activity or is violating this code of conduct.

School District Internet Access Release Form

As a condition of my right to use the School District network resources, including access to the Internet, staff members understand and agree to the following:

1. To abide by the District Acceptable Use Procedures and Code of Conduct.
2. That District administrators and designated staff have the right to review, edit and/or delete any material stored on District computers, which they believe, in their sole discretion, may be unlawful, obscene, abusive, or otherwise objectionable. Staff members hereby waive any right of privacy which they may otherwise have to such material.
3. That the School District will not be liable for any direct or indirect, incidental, or consequential damages due to information gained and/or obtained via use of the District's network resources.
4. That the School District does not warrant that the functions of any District network, or any network accessible through District resources, will meet any specific requirements you may have, or that the network resources will be error-free or uninterrupted.
5. That the School District shall not be liable for any direct or indirect, incidental, or consequential damages (including lost data or information) sustained or incurred in connection with the use, operation, or inability to use District networks and resources.
